# CHRONIC SORES

#### Signs of Polluted Blood.

There is nothing so repulsive looking and disgusting as an old sore. You worry over it till the brain grows weary and work with it until the patience is exhausted, and the very sight of the old festering, sickly looking place makes you irritable, despondent and desperate.

A chronic sore is the very best evidence that your blood is in an unhealthy and impoverished condition, that your constitution is breaking down under the effects of some a rious disorder. The taking of strong medicines, like mercury or potash, will sometimes so pollute and vitiate the blood and impair the general system that the merest scratch or bruise results in obstinate non-healing sores of the most offensive character.

Often an inherited taint breaks out in frightful eating sores upon the limbs or face in old age or middle life. Whenever a sore refuses to heal the blood can supply As flour and Pacific sale sales, and the beach, a well in the sales, and while antiseptic washes, salves, soaps and powders salmon, cod and tinned meats, embedded to be sales and a sale sale sale sales and a sale sale sale sale sales and a sale sale sale sale sales and a sale sale sale sale sale sale sales meta are pour no in from Bellinku, weetony," and it was strange how every grouns and poisons destroyed, and with S. S. S. this can be accomplished—the polluted blood is purified and invigorated, and when tich, pure blood is again circulating freely throughout the body the flesh around the circulating freely throughout
